

# PetroShield™

## VBoard® Coating Resists Oil and Grease *Keeps Protective Lubricants Where They Belong*

PetroShield features a special coating on its inside layer that keeps oil and grease in their place. Instead of rubbing off or being absorbed, lubricants stay on the product they are protecting. This unique feature makes PetroShield the perfect edge protection choice when shipping or storing metal machinery parts. PetroShield works well in any application in which oil or grease is being used to prevent rusting or to increase lubrication. The PetroShield coating can be applied to traditional right-angle VBoard and to other Laminations products.

*PetroShield's coating can be applied to FlexBoard®, which conforms to the curved edges of coiled and spooled materials.*

*Oil and grease stay on the products they are protecting.*

- Oil and grease stay on the products they are protecting
- Ideal for use with metal parts and machinery that are shipped and stored with a coating of protective oil or grease
- Coating prevents the absorption of grease into the paper
- Repulpable coating means PetroShield is 100% recyclable
- Can be printed with your company's logo or message
- Available in clay coat or kraft
- Standard sizes available in lengths up to 300 inches
- Choose from a wide variety of calipers
- Leg length sizes range from 1.5" to 4"

*Shields Against Damage*
