

Polywoven Air Bags

Easy to Inflate and Install, 100% Recycleable

Polywoven Air Bags are the best available in the industry. With superior performance, Laminations' Polywoven Air Bags are moisture resistant and easy to inflate and install, and overall more efficient than those made from Kraft paper.

The strength of Laminations' Polywoven Air Bags is the result of being manufactured with the highest quality materials. Our bags have been tested and are certified by the American Association of Railroads, so you can trust that they'll stand up to rigors of shipping Over the Road (OTR), Intermodal, or on the Rail.

Laminations' Polywoven Air Bags are 100% recyclable, and in many cases can be used more than once. Simply deflate after use and the bag will be ready for use on your next shipment.

See backside for more information

Over the Road

Intermodal

By Rail

Polywoven Air Bags	Paper (Comp)	Certification	Standard Sizes (W)	Application	Transport Mode
Laminations OTR	1 ply	None	30", 36", 46.5", 58"	Lateral Void	Road Only
Laminations L1	2 ply	AAR Level 1	30", 36", 46.5", 58"	Lateral Void	Road/Intermodal
Laminations L2	4 ply	AAR Level 2	30", 36", 46.5", 58"	Lateral Void	Rail/Intermodal
Laminations L3	6 ply	AAR Level 3	30", 36", 46.5", 58"	Lengthwise Void	Rail
Laminations L4	8 ply	AAR Level 4	30", 36", 46.5", 58"	Lengthwise Void	Rail
Laminations L5	N/A	AAR Level 5	30", 36", 46.5", 58"	Horizontal in Void	HD Rail / Ocean

- OTR series (Level 0) is designed for light weight cargo and is used for cargo shipped via truck.
- (L-1) is often used on light weight intermodal shipments or heavier over the road applications. AAR verified.
- MD series (L 2-3) are often used on heavier weight intermodal & light Rail shipments. AAR verified.
- HD series (L 4-5) is designed for the heaviest rail shipments and break bulk ocean applications. L-4 AAR verified, L-5 pending verification.

Inflators & Adaptors

Die Cast Metal Inflator

Quick Connect Adaptor allows for a secure connection while inflating and easy 360 free swivel for easy use

Economy adaptor is more affordable and fits snugly into the valve
