# PF PalletTop®

Pre-Formed Rectangular Edge Protection

Patented design helps stabilize and unitize pallet loads
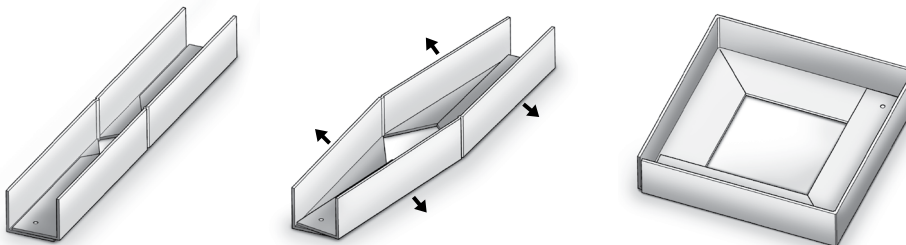

PF PalletTops are a smart alternative to expensive, hard-to-dispose-of wood pallet tops. Made by riveting two pieces of notched VBoard® together, PF PalletTop unfolds easily to form a sturdy square or rectangular shape to fit the tops, sides or bottoms of palletized loads to protect them from shipping and strapping damage.

Durable, cost-effective PF PalletTops are much lighter and less bulky than traditional wooden pallet tops. This makes them easier for employees to lift, safer for employees to handle and less costly to ship.

PF PalletTop ships folded to take up less storage space. It can then be unfolded and applied in one easy motion.

PF PalletTop also offers a simple, effective method of additional reinforcement for interior packaging.

- Ideal for use with stretch wrap to create see-through packaging

- Easy and safe for workers to handle

- Can be used to hold corner posts in place on display-ready pallets for greater ease in unitizing and stretch wrapping

- Designed to stay in place on automated stretch- and shrink-wrapping operations without manual assistance

- Offered with a wide range of high-quality printing options: add your own logo or message

- Available in: .090" (2.29 mm) (light duty) .120" (3.05 mm) (light duty) .160" (4.06 mm) (medium duty) .225" (5.72 mm) (heavy duty)

- Manufactured in leg lengths of:
  2" x 2" (50.80 mm x 50.80 mm)
  2.5" x 2.5" (63.50 mm x 63.50 mm)
  3" x 3" (76.20 mm x 76.20 mm)
  2" x 3" (50.80 mm x 76.20 mm)
  2" x 4" (50.80 mm x 101.60 mm)
  4" x 4" (101.60 mm x 101.60 mm)

- Custom sizes can be designed to meet the precise needs of your particular application

- Recyclable and environmentally friendly: a sustainable solution for your transport packaging needs
