

# FLEXRoll® Edge Protection on a Roll

Conforms to any shape, fits any size!

**FLEXRoll®** is a continuous-length roll designed to protect curved, round and irregular-shaped products by conforming to their edges to ensure the material beneath does not get damaged during shipping and storage.

## Edge Protection on a Roll

- Excellent for curved, round and irregular-shaped products.
- Ideal for converters of paper and other roll stock materials or any application where lighter-weight protection would be appropriate.
- Separates rolls from contact with truck, walls and floor; ideal way to create a barrier between individual rolls.
- 250-ft rolls are available in two grades, .040" and .045", to meet the needs of your particular application.
- Current standard size is a 3.5" band with 5" pre-bent triangular fingers.
- Custom sizes and printing options available upon request.
- Compatible with other forms of roll packaging such as headers, banding and stretch wrapping.
- Recyclable and environmentally friendly.
- Sold in full pallet loads.
- Sample pack available with 50-ft coil for trial evaluation.

Contact your local sales representative for samples.

*Pre-bent, evenly spaced sequential pieces allow for quick and easy application to edges of rolled and contoured products.*

*FLEXRoll® comes packaged two rolls in one convenient box.*

*This innovative packaging solution is easy to handle and easy to apply to products.*
