

NotchBoard[®]

Effective Corner Protection

- Precise die-cut notches and scores that allow users to quickly manipulate into a 90-degree corner shape

Versatile Packaging Solution

- Traditional "V" cut NotchBoard protects corners with ease
- Optional straight-cut leaves the full leg intact, allowing for increased compression strength
- Available in lengths from 17" to 288"
- Available in calipers from 0.140" to 0.225"

Efficient Construction

- Provides excellent protection with minimal material, and ships and stores unfolded for freight/storage savings
